

The **MEGASETTER** high-throughput recorder for ultra-large film sizes...
It's what other imaging devices would like to be when they grow up.

Combine the **MEGASETTER™** with Barco's impressive **IMPOSE™**, **FASTRIP™**, and **PostScript™** compatible production software systems, and you have an imaging power house providing high-speed, high-volume throughput with extreme accuracy and dependability.

For more information, call Barco Graphics, a world class company providing high performance solutions for the printing, packaging and prepress industries.

Barco Graphics MegaSetter

- Fully automated
- High speed FastrIP
